

PROTECTING YOUR ASSETS, NATIONWIDE

ALARM RESPONSE

CTSG provides UK-wide alarm monitoring services for solar plant security systems. We deliver reliable incident reporting and a secure helpdesk — ensuring your sites are always protected.

With 24/7/365 vigilance, our highly trained and SIA-licensed controllers use innovative technology to safeguard your assets and provide peace of mind.

"Their speed, efficiency, and quality of response stand out from competitors. The staff have always demonstrated excellence, flexibility and an understanding of our specific applications."

— Ron Manouach, Technical Director, Equans

Operated to the highest standards

Built to be resilient

Rapid response

We're here to help anytime
